Antenna Beam Pattern(Omni-directional)

PD-V3 360° 5.8GHz Microwave Motion Sensor is a C-Band Bi-Static Doppler transceiver module. It adopts built-in Resonator Oscillator (RCO) amplified signal external circuit. More sensitive and lower power consumption than V2. It is convenient for the customers to develop various products.

This module is ideally suitable for occupancy sensor in automatic lighting switches. It can also be used for ceiling mount intruder detectors.
